

PREMIUM TOUCH-UP PEN - AUTOMOBILE

IDEAL FOR PAINT CHIPS AND SCRATCHES.

OVER 300 000 ORIGINAL (OEM) COLORS AVAILABLE.

- The tip has a needle valve to allow unmatched accuracy, regardless of whether used vertically or horizontally;
- 2 in 1 formula: apply paint and transparent in one single operation for a perfect shine and seamless protection for your car. (Note: some tri coat colours are not available 2 in 1);
- 9 ml reservoir that can be used for up to 10,000 touch-up points;
- Creates a perfect seal, that will last for years;
- Protects against rust;
- Ergonomic, lightweight, easy to use and adjusts to all types of touch-up;
- Plastic tip available. OUR MOST RECENT INNOVATION.

Acclaimed by technicians, body shops, esthetics, dealers and consumers, the Genicolor touch-up pen with its unique tip has established itself as the ultimate and primary solution to apply easily, in one single step, a perfect touch-up.

OUR AUTOMOBILE PAINT

- Our paint formulation of 2 in 1 includes the base coat and the transparent coating ("clear coat"), which adds gloss and protects against rust, UV and abrasives. Under the principles of nanotechnology, once the paint is applied, the clear coat rises to the surface to form a resistant waterproof and shiny seal. With Genicolor, you can make any touch-up in one single operation.
- Color matches are made with Original Equipment Manufacturer (OEM) standards.
- All types of finishes are reproduced: solids, metallics, pearls and tri-coats.
- We only work with high quality products internationally recognized in the field of paint for automobiles.
